### Architecture Depends Jeremy Till

With Architecture Depends, architect and critic Jeremy Till offers a proposal for rescuing architects from themselves: a way to bridge the gap between what architecture actually is and what architects want it to be. Mixing anecdote, design, social theory, and personal experience, Till's writing is always accessible, moving freely between high and low registers, much like his suggestions for architecture itself.

### Architecture Depends (The MIT Press): Till, Jeremy ...

Jeremy Till offers a critical, if not polemical, insight on questions relative to future practice, the architect's shifting role, architecture's engagement, etc. Architecture depends on internal and external factors. In this respect, the discipline should be more connected to society rather than being only focused on the building and its site.
