I have a Craftsman riding mower with a Briggs and Stratton 17.5 HP engine. Engine backfires through the carb when trying to start. I have replaced carb, cleaned tank, replaced fuel filter, checked valves, push rods, and pulled flywheel to see if the key was sheared. Everything looks good. Any suggestions as to what could be wrong.

Answer (1 of 3): Small engine manufacturers have stopped rating engines by horsepower and are only providing the displacement, these days. However, the general rule of thumb, for small, 4-cycle, utility engines, is to divide the cc displacement by 35 to estimate the horsepower output. This would ...
