Meatotomy is a form that involves splitting of the glans penis alone, while genital bisection is a more extreme form that splits the penis entirely in half. Genital piercings and genital tattooing may be performed for aesthetic reasons, but piercings have the benefit of increasing sexual pleasure for the pierced individual or their sex partners . [1]

### Genital modification and mutilation - Infogalactic: the ...

A Urethral Reroute is basically what it sounds like - re-routing the path of urine through a new hole in the urethra. This seems to be a practice for male genitalia because of the path of the urethra through the body and the proximity of it to the skin between the scrotum and the anus, making for an easy access point.

### NSFW: Five Unusual Extreme Body Modifications - CVLT Nation

Nullo is a subculture within the extreme body modification community where men with phalluses surgically remove their genitals. Being nullo is not comparable to being transgender and having sexual reassignment surgery, as nulos desire being completely gender neutral and without genitals.
