Marienthal The Sociography Of An

Marienthal is a small community twenty miles outside of Vienna, set against a rural backdrop but dominated by industry. In 1930, the factories that provided employment for the vast majority of its population closed down. This was a community that had an unemployment rate of some seventy-five percent.

Marienthal is an exception.” —Gavin Mackenzie, The British Journal of Sociology “Austria in 1930 was gripped by a depression much worse than anything we were ever to know. A sociologically oriented group attached to the Institute of Psychology at the University of Vienna moved at the time to study a closed rural community so as to better understand the various, ill-understood effects of unemployment. . . .

Marienthal: The Sociography of an Unemployed Community ...

This same hypothesis guided their work on what became a classic study of unemployment, Marienthal: The Sociography of an Unemployed Community (Jahoda, Lazarsfeld, & Zeisel, 1933/1971). The work was relatively unknown until it was re-issued in 1971; most copies of the first edition were burned because its authors were Jewish.

Marie Jahoda (1907 - 2001) - APA Divisions

"Marienthal" represents a colossal breakthrough in social research. It provides a combination of quantification and interpretive analysis of qualitative material-an approach that remains in the forefront of present-day research design.
