I have a 2006 Sea Ray 27 Sundeck with a 496 350 hp Mercruiser. I'm trying to determine if I have a blockage in my cooling lines to the engine. I've been told the temp is an indicator because it should usually run at 160. Also, the water psi is an indicator but I'm having a hard time determining what the pressure should be since I can not find a ...
