The common ostrich (*Struthio camelus*), or simply ostrich, is a species of flightless bird native to certain large areas of Africa and is the largest living bird species. It is one of two extant species of ostriches, the only living members of the genus *Struthio* in the ratite order of birds. The other is the Somali ostrich (*Struthio molybdophanes*), which was recognized as a distinct species by ...

Introduction. The majority of SARS-CoV-2 infections are either asymptomatic or result in only mild disease. 1 However, a substantial proportion of infected individuals develop a respiratory illness requiring hospital care, which can progress to critical illness with hypoxic respiratory failure requiring prolonged ventilatory support. Among COVID-19 patients admitted to UK hospitals in spring ...
